

ESCO in EURES

ESCO Maintenance
Committee
7-8 December 2016

Regulation (EU) 2016/589 of the European Parliament and of the Council of 13 April 2016 on a European network of employment services (EURES), workers' access to mobility services and the further integration of labour markets, and amending Regulations (EU) No 492/2011 and (EU) No 1296/2013

Article 19

Automated matching through the common IT platform

1. Member States shall cooperate with each other and with the Commission regarding interoperability between national systems and the European classification developed by the Commission. The Commission shall keep the Member States informed about the development of the European classification.

2. The Commission shall adopt and update, by means of implementing acts, the list of skills, competences and occupations of the European classification. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 37(3). Where the committee delivers no opinion, the Commission shall not adopt the draft implementing act and the third subparagraph of Article 5(4) of Regulation (EU) No 182/2011 shall apply.

3. For the purpose of automated matching through the common IT platform, each Member State shall, without undue delay but no later than three years after the adoption of the list referred to in paragraph 2, establish an initial inventory to map its national, regional and sectoral classifications to and from that list and, following the introduction of the use of the inventory on the basis of an application made available by the European Coordination Office, regularly update the inventory to keep it updated with the evolution of recruitment services.

4. Member States may choose to replace their national classifications with the European classification, once completed, or maintain their interoperable national classification systems.

5. The Commission shall provide technical and, where possible, financial support to Member States when they establish the inventory pursuant to paragraph 3 and to the Member States which choose to replace national classifications with the European classification.

6. The Commission shall adopt, by means of implementing acts, the technical standards and formats necessary for the operation of the automated matching through the common IT platform using the European classification and the interoperability between national systems and the European classification. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 37(3).
