Update on the implementation of ESCO community fora

28th MAI meeting
20 November 2018

WORK DONE

- ✓ Definition of different types of fora
- ✓ Definition of the business requirements and main functionalities
- ✓ Business analysis: comparison of different standard software components
  - Initial benchmarking based on popularity rate, functionalities, status of maintenance, technical solutions and release status
  - Installation and testing
  - Evaluation of ECAS interconnection
- ✓ Identification of the most appropriate tool – Vanilla forums
- ✓ Data protection policy in place

TARGET GROUPS

ESCO Implementers

Use the ESCO classification to provide software solutions, products or services (PES, job boards, HR software vendors, social media, recruiters, career guidance services, training providers, awarding bodies)

TARGET GROUPS

ESCO Domain Experts

Deeper insight into the knowledge, skills and competences needed in specific economic sectors, occupations or into cross-sectoral knowledge, skills and competences (recruiters, education and training professionals, social partners, industry associations, professional associations, sector skills councils and networks)

TARGET GROUPS

Member States representatives

Members of the MSWG and MS representatives responsible for implementing the EURES Regulation

TARGET GROUPS

ESCO Maintenance Committee

Experts from public employment services, statistical organisations, chambers of commerce, the ILO and other key stakeholders

university teaching assistant
Description
University teaching assistants are graduate students or recent graduates employed on a temporary contract at a university or a college for teaching-related responsibilities. They assist the professor, lecturer or teacher of the specific course they are in charge of in the preparation of lectures and of exams, grading papers and exams and leading review and feedback sessions for the students.
